A new congress where everyone is welcome

11/SEP–28/NOV

PROGRAMME
The SEPA Foundation is a globally recognised institution which welcomes everyone. The guiding principles which underpin SEPA’s work are to further the development of periodontology and the promotion of health. Its commitment to science, research, education, and improving the oral and general health of the population has led the SEPA Foundation to receive international recognition. With participants from over 60 countries and more than 6,000 attendees, the Periodontology and Oral Health Congress brings together dental professionals who want to increase their knowledge of all the newest techniques and advances, and the keys to providing outstanding clinical dental care. Its training programme and the publications Clinical Periodontology and Caring for Your Gums are an excellent example of scientific dissemination.

Periodontology and Oral Health for Everyone is the goal of an institution whose core values have been developed by a Scientific Society that was founded over 60 years ago: rigor, innovation, excellence, transparency and ethical conduct. The dental community will face numerous challenges over the coming years, and SEPA’s goal is to help you find the answers.

SEPA – facing the future together.

Clinical dental research with SARS-Cov 2

Moderator: Elena Figuero

Welcome.
Antonio Bujaldón and Marco Medina

The SARS-CoV-2 virus.
Victor Cid

IFEMA Hospital, the story of a challenge.
Antonio Zapatero

COVID-Scientific perspectives in dentistry.
David Herrera

In-vitro studies in dentistry with SARS-CoV-2.
Laura Marcos and María José Marín

Clinical research designs in dentistry with SARS-CoV-2.
Mariano Sanz

The role of SEPA in research.
Paula Matesanz

Conclusions.
Elena Figuero
11.30-13.30 Sepa Research

Moderators: Eduardo Montero and Javier Sanz
An evaluation of surgical treatments based on studies with case series.
Nelson Carranza
An evaluation of surgical treatments based on cohort studies.
Luigi Nibali
An evaluation of surgical treatments based on the POE.
James Collins
An evaluation of surgical treatments based on systematic check-ups.
David Herrera
Debate.

Includes simultaneous Spanish-English translation.
16 September

20.00 - 21.00

Presentation of the finalist cases in the SEPA H-Generation League

Moderator: Olalla Argibay
Members of the jury: Cristina Vallès and Santiago Mareque

A multidisciplinary approach for a diabetic patient who wants a second chance for their teeth.
Emma Busoms Saltor

Treatment of stage III grade C periodontitis and the consequent mucogingival in the lower incisors (RT3).
Jaime Bueno

Multidisciplinary treatment of an endo-perio lesion with an impossible prognosis.
Rodrigo González Terrats

Clinical application of digital 3D technology for autologous dental transplants.
Ignacio Pedrinaci
SEPA Gold Align Symposium.
Incorporating invisible aligners in clinical practice

Institutional opening.
José Nart, SEPA Vice-Chairperson.
Nacho Mourelle, Director of GP Business Unit. Align Technology, Inc.
Moderator: María Rioboo

How Invisalign Go can change prosthodontics in daily dental practice.
Camilo D’Arcangelo

The biological fundamentals that underpin successful dental work.
Mariano Sanz

How to use aligners before restorations to enhance aesthetics.
Óscar González

How to use aligners in cases which require dental implants.
Marià Santamaría

Debate.
Mariano Sanz, Óscar González and Marià Santamaría

5D technology and its importance in the digitalisation of the dental clinic.
Ingo Barese

Includes simultaneous Spanish-English translation.
Introduction.
Moderated by Andrés Pascual

The role of free gingival grafts in root coverings.
Massimo De Sanctis

The handling of soft tissues around teeth to improve aesthetics in the maxilla.
Iosune Antía

Handling of soft tissue in severe recessions of the lower maxilla.
Rafael Naranjo

With the special participation of
Giovanni Zucchelli

Francesco Cairo

Conclusions.
Andrés Pascual

Includes simultaneous Spanish-English translation.
25 September

17.30-19.00

Peri-implantitis plastic surgery

Moderator: Andrés Pascual

Improving the volume around implants. Where is the limit?
Ignacio Sanz Martín

A combined focus on hard and soft tissues.
Alberto Ortiz-Vigón

Effect of soft tissue provisional graft combinations to improve volume around implants.
Ramón Gómez Meda

With the special participation of
Goran Benic

Debate.

Conclusions.
Andrés Pascual

Includes simultaneous Spanish-English translation.
26 September

9.30-11.30 Peri-implantitis plastic surgery

Moderated and presented by: Vanessa Ruiz-Magaz

General considerations in the surgical handling of peri-implant dehiscences in single-unit implants.
Martina Stefanini

Treatment of peri-implant dehiscences and peri-implant deficiencies with modified flaps.
Paulo Mesquita

Treatment of peri-implant dehiscences and peri-implant deficiencies with the tunnel technique.
Ignacio Sanz Martín

Debate moderated by
Vanessa Ruiz-Magaz

Includes simultaneous Spanish-English translation.
26 September

11.30-14.00

Live surgery from Bologna

Moderated and presented by: Vanessa Ruiz-Magaz

Live surgery: Treatment of peri-implant dehiscence.

Martina Stefanini and Giovanni Zucchelli

With the participation of the renowned professionals:

Laurence Adriaens
Martina Stefanini
Jerián González
Fernando Franch

Includes simultaneous Spanish-English translation.
Fonseca Award

19.00 -20.30

Clinical effects of the adjunctive use of a 0.03% chlorhexidine and 0.05% cetylpyridinium chloride mouth rinse in the management of peri-implant diseases: A randomized clinical trial.
Alberto Pulcini

Adjunctive effect of modifying the implant-supported prosthesis in the treatment of peri-implant mucositis.
Beatriz de Tapia

Eduardo Montero
**Gold Symposium**

**SEPA Nobel Biocare**

### Aesthetic dilemmas regarding teeth and implants: an interdisciplinary vision.

**Why is interdisciplinary treatment important?** Opinions from two dental professionals based on their long careers Iñaki Gamborena and Óscar González.

**Are the dilemmas about teeth and implants the same?**
Iñaki Gamborena and Óscar González

- **What are the greatest challenges when treating teeth, and what are the greatest advantages of implants:**
  - Perio / mucogingival perspective. Clinical cases. Iñaki Gamborena and Óscar González
  - Orthodontic / forced eruption perspective. Clinical cases. Óscar González
  - Restoration perspective: Importance of reshaping (vertical?). Clinical cases. Iñaki Gamborena and Óscar González

**Taking decisions when combining treatments for teeth and implants.**
  - Iñaki Gamborena

**Implant complications:**
- Starting with the diagnosis. Óscar González
- The importance of soft tissue. Iñaki Gamborena
- Clinical cases. Iñaki Gamborena and Óscar González

**Shared reflexions. The evolution of implant therapy and the introduction of biomaterials into a digital environment:** Antonio Bujaldón and Javier Vidal.

**Questions to start a debate on each point, and the proposed guests.**
- Why is interdisciplinary treatment important? Mariano Sanz or Antonio Bujaldón.
- Are the aesthetic dilemmas about teeth and implants the same? Ricardo Mitrani, Paulo Mesquita or Joseph Kahn
- What are the greatest challenges when treating teeth, and what are the greatest advantages of implants, in particular with periodontal patients?
  - Nuria Vallcorba or France Lambert or Isabella Rochietta
- Taking decisions when combining treatments for teeth and implants? Irena Sailer
- How to deal with complications in implant therapy? Luca de Stavola

Includes simultaneous Spanish-English translation.
3 October

9.30-10.50
1st/Part

**Sepa Dentaid**
Committed to health: General health begins with the mouth.

Moderator and presenter: Agustín Casas

**Promoting periodontal and peri-implant health.**

**What is health? How can we intervene before a disease starts?**
Understanding periodontal and peri-implant health from an oral and general health perspective. Eduardo Montero

**What does microbiology teach us about the relationship between oral and general health?** Vanessa Blanc

In view of the epidemiologic data, what strategies can we implement to promote the health of our patients at the clinic? Is it possible to have customised periodontology? Miguel Carasol

**Primary and secondary prevention of periodontal and peri-implant diseases.**

Primary prevention of periodontal diseases: Can we maintain periodontal health? Angus García

Secondary prevention of periodontal diseases: How can we make non-surgical periodontal treatment more effective? How can we manage particularly complex cases? Agustín Casas

Primary and secondary prevention of peri-implant diseases: Peri-implantitis prevention strategies. How can we make the treatment of peri-implant diseases more effective? Cristina Vallès
Moderator and presenter: Agustín casas

**Promoting general health at the dental clinic.**

*How and why should we promote health at the dental clinic?*

What the oral health team should know about the cardiovascular health/diabetes of their patients. Regina Dalmau

Promoting cardiovascular health at the dental clinic. Presentation of the protocol for metabolic evaluations at the clinic. Miguel Carasol

How can we detect diabetes early at the dental clinic by applying the protocol in our daily practice? Eduardo Montero

*How does COVID-19 affect our dental practice?*

The importance of the MOUTH, biology of the virus, systemic involvement. Rubén León

Protective and work methods at the clinic. Angus García

Role of the Confederation for Production and Trade. Vanessa Blanc
Introduction.
Nuria Vallcorba and Juan José Gómez Doblas

What is the relationship between periodontitis and the systemic metabolic syndrome?
Eduardo Montero and Juan Girbés

How does periodontitis affect the cardiovascular system?
Ana Molina and María Molina

Erectile dysfunction and periodontitis: What do we know?
Francisco Mesa and Miguel Arrabal Martín

Debate and conclusions.
Moderated by: Nuria Vallcorba and Juan José Gómez Doblas

Includes simultaneous Spanish-English translation.
10 October

9.30-13.00

**Prevention of systemic diseases and their relationship with oral health**

**General introduction:** Miguel Carasol

**BLOCK 1** The prevention of systemic diseases and their relationship with oral health.

**Introduction.** Blas Noguerol and Juan Sergio Fernández

**What is the relationship between Alzheimer’s and periodontitis?**
Gloria Calsina and David A. Pérez Martínez

**Reducing the rate of aspiration pneumonia.**
Blanca Paniagua and Jordi Almirall

**The effect of non-surgical periodontal treatment on HBP.**
Eva Muñoz and Juan José Gómez Doblas

**BLOCK 2** The role of the oral health team in the promotion of general health.

**Moderator:** Bettina Alsonso

**Is periodontitis a risk factor for cancer?**
Miguel Carasol and Javier Román

**Periodontal health prior to pregnancy.**
Ana Carrillo de Albornoz and Isabel Campo Gesto

**The connection between diabetes and periodontitis: What is the role of the oral hygiene team?**
Cristina Serrano and Juan Girbés

**Presentation of the protocol to determine metabolic risk: how to implement it in our daily practice at the clinic.**
Miguel Carasol, Nuria Vallcorba and Blas Noguerol

**General conclusions:** Miguel Carasol

Includes simultaneous Spanish-English translation.
Kaleidoscope. Taking decisions in situations with a poor prognosis

Moderator: Paula Matesanz

**Institutional opening.** Alejandro Padrós and Antonio Bujaldón

**The limits of periodontal treatment. Interview between** Pedro Lázaro and David Herrera

**How do we establish the prognosis for a tooth?** Paula Matesanz

What are the dental treatment options when managing anterior teeth with a poor prognosis?

Surgical and non-surgical periodontal treatment for anterior teeth with a doubtful prognosis. Marta Escribano

Is it possible to change the prognosis for teeth with endo-periodontal lesions? Jerián González

Interdisciplinary case management for teeth with a doubtful prognosis. Óscar González

**Debate.**

Surgery in a video format: Fitting implants to reposition anterior teeth in cases where there is little support. Pedro Lázaro. With the participation and comments from: Nerea Sánchez and Mateo Albertini

**Debate on decision-making** Leticia Sala, Juan Zufia, Herminio García, Antonio Liñares. Moderated by Paula Matesanz

“We must always remember that the tooth wants to live”

Raúl Caffesse
Platinum Symposium SEPA Straumann ITI

Dentistry in 2020. From the patients’ experience to efficiency at the dental clinic.

The “Dentistry 2020 Symposium. From the patients’ experience to efficiency at the dental clinic” comprises 5 blocks which include topics such as effective communication with our patients using social media, new technologies such as artificial intelligence, and workflow efficiency at the dental clinic. It also examines how the latest proven surgical techniques and digital and artificial intelligence tools can significantly enhance both the patients’ experience and the clinical care provided, transforming the patients’ experience while maintaining the quality and long-term outcomes of the treatment.

Block 1: Communication with the patient
Block 2: The patient’s experience during the first visit
Block 3: Planning the treatment
Block 4: The treatment
Block 5: Artificial intelligence as an ally when building patient loyalty

Speakers:
Roberto Rosso
Francisco Texeira
Guillermo Pradíes
Alberto Ortiz Vigón
Esperanza Gross
Erik Regidor
Antxoka Urzainki
David García Baeza
Juan Flores
Cristina Carral
17 October

10.00-13.15

Gold Symposium
UCM-GSK-SEPA

Oral health and a healthy lifestyle: from stress management to antioxidants.

Welcome – presentation. Moderator: David Herrera (UCM)

UCM presentation. Rosario Garcillán

SEPA presentation. Antonio Bujaldón

GSK presentation.

The importance of oral health: global burden and systemic consequences. Miguel Carasol

Which environmental and acquired risk factors are critical to oral health? Jorge Serrano

Tobacco and alcohol: what are their harmful effects on oral health and how can we manage them? Carmen de Pablo

Food components which affect oral health. Begoña Bartolomé

Break

Stress: its harmful effects on oral health and how we can manage them. Francisco Martínez Rus

Sedentary lifestyles: can physical exercise improve oral health? Eduardo Montero

Cultural and socio-economic levels: how does inequality affect oral health? Agustín Casas

Social action at the Faculty of Odontology. Bettina Alonso

Debate and conclusions. Speakers and moderator
Periodontal regeneration

Introduction and cases.
Nerea Sánchez

New approaches in periodontal regeneration. Is surgery always necessary?
Antonio Liñares

What are the long-term outcomes of periodontal regeneration?
Can we maintain the results over time?
Anton Sculean

With the participation of
Mario Aimetti

With the participation of
Leo Trombelli

Debate between all the participants and guests.
Moderated by Nerea Sánchez

Includes simultaneous Spanish-English translation.
23 Octubre

18.00-20.00

**Bone regeneration**

**Introduction and cases.**
Simultaneous bone regeneration and implant placement.
Juan Blanco

**Immediate implants with hard and soft tissue grafts.**
Alberto Sicilia

**With the participation of**
Vivienne Chapuis

**With the participation of**
Jan Cosyn

Debate between all the participants and guests.

Includes simultaneous Spanish-English translation.
24 October

9.30-11.30

Complications in implants therapy

Introduction and cases.
Ana Molina

How do we manage complications in guided bone regeneration?
Christoph Hammerle

What is the minimum thickness required for vestibular bone in implants?
Alberto Monje

With the special participation of
Ronald Jung

What is the minimum thickness required for vestibular bone in implants?
Moderated by Ana Molina
Complications in implant therapy

11.30-13.30

Introduction. Marta Escribano

How to optimize aesthetic outcomes in delayed implants. Adrián Guerrero

How to prevent complications in immediate implants. Jan Cosyn

With the special participation of Maurizio Tonetti

With the special participation of Fabio Vignoletti

Debate between all the participants and guests. Moderated by Marta Escribano

Includes simultaneous Spanish-English translation.
Virtual Regenerative Symposium

30 October
15.00 – 19.30

Live surgery & hands on

Coordinators: Juan Blanco & Olalla Argibay

Introduction
> Material, instructions and case presentation

Live Surgery
> Implant placement + soft tissue augmentation with a novel porcine acellular dermal matrix
> Q&A

Hands on
> Soft tissue augmentation around implants with the novel porcine acellular dermal matrix
> Alveolar ridge reconstruction for prosthetic treatment
> Root coverage in recession defects with the novel porcine acellular dermal matrix. (Tunnel or CAF technique)

You need to register in advance for these sessions.
The direct and hands on surgery will be performed at Santiago de Compostela. Those taking the course, which is 100% online, may take it in Barcelona, Madrid, Lisbon or their clinic.
31 October

9.30-12.00

Virtual Regenerative Symposium

Live broadcast from studio in Madrid

Novel regenerative concepts for soft tissue augmentation and improved healing. Moderator: Mariano Sanz

Institutional opening.

Scientific overview. Mariano Sanz

Novel soft tissue augmentation materials – biology and comparison with autologous connective tissue graft. Juan Blanco

Biological and clinical rationale behind the use of these innovative materials in daily practice – new results. Anton Sculean

A comprehensive clinical perspective – indications and step by step procedure. Andres Pascual La Rocca

Expert panel discussion

Soft tissue augmentation – state of the art for the different indications and the role of the new biomaterials

Moderator: Mariano Sanz

Fernando Guerra, Gerhard Iglhaut, Roland Jung, Marc Quirynen

Conclusions. Mariano Sanz

Access is free-of-charge but you must register in advance.

Includes simultaneous translation. The symposium will be held in English and translated to Spanish, Portuguese, Italian and French
30 October

16.00-19.00

Strategic vision and service excellence to meet the new challenges shaping the future of dentistry

Introduction and moderation.
Pedro Buitrago

Applying the strategy in clinic management: putting the theory into practice.
Carlo Gallucci

Beyond the daily practice. The core skills, preparation, and attitude needed to implement the strategic vision.

Debate.
Moderated by Pedro Buitrago
Strategic vision and service excellence to meet the new challenges shaping the future of dentistry

9.30-13.30

Introduction.
Assumpta Carrasquer
A study of new models for dental management. How to adapt management practices?
Primitivo Roig
The hazards of a family business: how to manage potential conflicts, and prevent them from affecting the clinic or patient care.
Manuel Domínguez
Is the management of a clinical failure an opportunity to improve?
Marta Escribano
How to manage the reputation of a dental clinic, and how can it add real value to the business?
Borja Dehesa

Debate.
Moderated by Assumpta Carrasquer
A new congress where everyone is welcome

NOVEMBER PROGRAMME

Sepa'20 OnAir

A new congress where everyone is welcome

11/SEP - 28/NOV
5 November

09.00 - 12.30  Sepa Research

Presentation of the SEPA 2020 communications.
Treatment of periodontitis in stages I–II–III – The EFP Guideline: fundamentals and steps, first and second steps of therapy

Chairs: Mariano Sanz and David Herrera

Why a CPG – A step by step approach for periodontal therapy. Mariano Sanz

Step 1 – Introduction. David Herrera

Step 1 – Behavioural change and risk factor control. David Herrera

Step 2 – Introduction. Mariano Sanz

Step 2 – Subgingival instrumentation. Filippo Graziani

Step 2 – Alternative methods for subgingival instrumentation. Giovanni Salvi

Step 2 – Adjunctive therapies. Paula Matesanz

Step 3 – Introduction – reevaluation of steps 1 & 2. Mariano Sanz

Step 3 – Access flap surgery. Ignacio Sanz–Sánchez

Step 3 – Resective surgery. Luigi Nibali

Step 3 – Regenerative surgery. Anton Sculean

SPC – Supportive Periodontal Care – Introduction. David Herrera

SPC – Professional interventions. Luca Landi

SPC – Patient-based supragingival biofilm control. Elena Figuero

Conclusions – The goals of periodontal therapy. Mariano Sanz, David Herrera

Includes simultaneous Spanish–English translation

**Event presenters:** Ana Molina and Paula Matesanz

Presentation of 4 clinical cases:

- **Welcome and presentation.** Ana Molina and Paula Matesanz
- **What is the CPG adaptation process, and how can it be implemented (video)**
- **Case 1:** Eduardo Montero
  - Debate and application of the specific recommendations for case 1.
- **Case 2:** Silvia Roldán
  - Debate and application of the specific recommendations for case 2.
- **Case 3:** Juan Blanco
  - Debate and application of the specific recommendations for case 3.
- **Case 4:** José Nart
  - Debate and application of the specific recommendations for case 4.

**Conclusions and discussion with the audience.** Coordinated by: Ana Molina and Paula Matesanz

Includes simultaneous Spanish-English translation
Prevention of peri-implantitis

9.30-11.30

Introduction.
Mariano Sanz

Is it possible to prevent peri-implantitis?
Mariano Sanz

Does the surface area of the implants affect peri-implantitis?
Tord Benglund

Does the macro-design of the implants affect the onset of peri-implantitis?
Giovanni Salvi

Debate with the speakers and the other guests.
Stefan Renvert, Andrea Mombelli, Ann-Marie Ross-Jansaker, Nicola Zitzmann, Liza Heitz Mayfield and Cristiano Tomassi

Moderator: Mariano Sanz
November

11.30-13.30

Bone regeneration in peri-implant defects.

Taking decisions in peri-implant lesion treatment.
Mariano Sanz

Surgical management of the soft tissues to improve the regenerative outcome.
Ignacio Sanz Martín

Submerge versus non submerge.
Ausra Ramanauskaite

Combined approach: Combined resective and regenerative approach.
Frank Schwarz

Debate with the speakers and the other guests.
Jan Derks, Antonio Liñares, Ignacio Sanz Sánchez, Mario Rocuzzo and Isabella Rochietta
Moderator: Mariano Sanz
7 November

9.30-10.45  Combined endo-perio lesions

Introduction and moderation.
Ana Carrillo de Albornoz

Protocol and treatment times for perio-endo lesions.
Enrique Martinez Merino

Periapical surgery. What factors are associated with a successful treatment?
Guillermo Doria

Autologous transplants. How does 3D planning help?
Francesc Abella

10.45-12.00  Treatment plan

Introduction and moderation.
Juan Rumeu

Extract or maintain? Does the impossible prognosis exist?
Lucía Barallat and Germán Barbieri.

Combining periodontal therapy and implantology.
Luca Gobbato and Fabio Mazzoco

Debate.
Moderated by Juan Rumeu
12.00-13.30

**Perio-pros Crown lengthening**

- **Introduction.**
  - Francisco Vijande
  - A restorative approach to crown lengthening.
  - Protocols and waiting times.
  - Vicente Berbís

- **Crown lengthening with APE: diagnosis and step-by-step surgery.**
  - Juan Flores

- **Minimally-invasive aesthetic crown lengthening. Advantages and limitations.**
  - Ernest Rojo

- **Gingival smile treatment taking an interdisciplinary approach. Includes live surgery.**
  - Óscar González
13 November

16.00 - 19.30

Gold Symposium
SEPA Ticare

**Institutional opening.**
Fernando Mozo and Antonio Bujaldón

**Customised strategy for a long-term successful outcome of dental implants. Analysis of risk factors.**
Juan Blanco and Arturo Sánchez

**Soft tissue management for correct implant maintenance.**
Àngels Pujol and Assumpta Carrasquer

**Required bone conditions in implant therapy to prevent marginal losses.**
Ramón Lorenzo and Alberto Salgado

**The importance of correctly aligned prosthetic components for a long-term successful outcome.**
Conrado Aparicio and Carlos Larrucea

Debate.
14 November

9.30-10.30

Current concepts in periodontal and peri-implant diseases

Introduction and moderation.
Maria Rioboo

Periodontitis: What is the importance of the inflammatory response?
Yago Leira

Periodontitis: stages and grades.
Elena Figuero

¿How can we differentiate between peri-implantitis and peri-implant vestibular deficiencies?
Andrés López

With the collaboration of

- Klockner
- Sensodyne
- BioHorizons
- Johnson & Johnson
14 November

10.30-11.30

Teamwork for periodontal and peri-implant health

**Introduction and moderation.**
Regina Izquierdo

**What do we mean by periodontal and peri-implant health?**
Cristina Carral and Sara Vela Herance

**How do prevent a relapse in patients with a history of periodontitis?**
Nerea Sánchez and Marta Sánchez

**How to prevent mucositis and peri-implantitis.**
Ramón Ceballos and Noelia Navarro Ruiz
Aesthetic and functional restoration after periodontal treatment

Introduction and moderation.
Ana Echeverría

Is it always possible to treat the side-effects of periodontal treatment?
Ruth Estefanía

Managing periodontal patients with aligners.
Javi Vilarrasa

Strategies and communication skills to help motivate patients.
Juan Puchades
21 November

9.30-12.30

Clinical Classroom

**Introduction.**
Isabel Lanzós

**Side-effects: effectiveness of non-surgical periodontal treatment.**
Ana Echeverría and Ángels López

**Treatment effectiveness for peri-implant diseases.**
Álex Picó and Paola Fernández Fernández

**Effectiveness of non-surgical periodontal treatment in particularly complex situations and poor access.**
Estefanía Laguna, Mercedes López and Noelia Alonso Garzón

**How can we improve the aesthetic and functional situation of our periodontal patients?**
Óscar González and Laura Amador
27 November

**16.00-19.00**

**A digital approach to periodontal-prosthodontic treatment**

**Introduction.** Silvestre Ripoll

**Has the digital circuit been completed?** Guillermo Pradíes

**Current precision of guided surgery in the digital flow.** Manu Sancho

**Digital surgical planning for aesthetic crown lengthening and bone regeneration.** Jesús Muñoz Peñalver

**Debate.** Moderated by Silvestre Ripoll

**Intraoral scanners and complex restorations, simplifying clinical practice.** Jerónimo Rubio

**Pre-prosthetic planning: a guide to the correct tri-dimensional positioning of the implant.** Beatriz Martín Nieto

Includes simultaneous Spanish-English translation
28 November

9.30-12.30

How to prepare the clinic for the inevitable digitalisation

Introduction.
Francisco Enrile

3D printing. Myths and facts.
Joan Sanjuan

From the clinic to the laboratory in 3D.
Waldo Zarco

How to navigate the digital world and incorporate it into dentistry.
Key tips and opportunities. Myths and facts.
Jacobo Somoza

How to integrate the digital revolution.
Carlos Repullo

How to create value thanks to artificial intelligence.
Inma Martínez

Debate.
Moderated by Francisco Enrile.

Includes simultaneous Spanish-English translation
